

Melancholy

Sol - Do

Now comes a day
And I remember you
Now comes a day
But this day isn't new
Where did you stay
After having pierced my love trough
Why didn't you say
Or just let a clue
Now comes a day
A day without you

Lam - Ré

And I remembre theses soft lights
Which shrouded you, from your inside
Two bodies and some love sigh
You give me, a new sight
And all around the world is changed
Since you have crossed

Sol - Do

My way, my way
My way, my way

Chorus

Sol - Do

The wind of may
Doesn't erase my love for you
The wind of may
Blows far to follow you
Blows, so far away
But you're always on my view
May, I lay
And think you are cruel
The wind of may
Says me : it isn't true

Lam - Ré

And I remember the bad day
I come back and you say
That love for me disappear
The without cry or tears
I close my eyes, and I stay
I let you go away

Sol - Do

Away, away
Away...

Chorus

Sol - Do

Now comes a day
A day without you
Nows comes a day
And I'll remember you
